FOR SCUERNER, ISHAM G. HARRIS FOR COMMENS, TEXTH DUTKICT, WM. T. AVBR FOR SENATE, FROM PAYETTE AND SHELEY. R. G. PAYNE, of Shelby.

FOR PLOATER, PAYETTE, TIPTON AND SHEE C. H. WHITMORE.

TOR SEPRESENTATIVES, SHELDY COUNTY. J. P. FARRELLY & W. T. FARLES

ted" with good cotton, while inferior and country,) the charge of extravagance, and the worthless rubbish composed the great mass of question, what has the Democratic party done the bale. In the interior of others were found for the country. On the last manned by was nieces of rock, or fifthy refuse, and in one in- peculiarly aloquent. stance a man of rubbish, among which was Whenever I hear true eloquence sugaged in

in evident there is no mere overshight or come to my eyes in lears of approbation. and guildily. Our correspondent calls attention to the fact that this form of awindling is on the increase, and was never so extensively season. This is to be expected-when men once begin to do wrong, they invariably procaed from had to worse-species one season leads to further villainy the next. There is rease—the price of cutton is high, and th emptation to fraud is high in proportion. He that will cheat a little when cotton is nine cents a pound, will increase his reguery when it is sleven cents. We know that some plant ers, when informed last season of the fact the roofs of dishonest packing had been found a heir bales, excused themselves by saying the were utterly unawars of the circumstances they had left the packing in the hands of their verseers, and they, to make a good about Will planters remember that this excuse avails nothing in the eye of the law-nothing in the courts of honor-nothing in the estimation of the mercantile community. The packing o money, is taken upon their credit, just as the planter employs an overseer to superintend the

and his good name into the power of another. Our correspondent is informed, in a business ter of the cotton shipped from Memphis will nidergo a permanent depreciation, and its price a permanent depression, unless the abuse self to land, but lives on the mighty deepwe are animadverting upon ceases buyers and there is neither reason nor law among from a distance will give less money for Mem-those recorded in the edicts of nature which phis cotton than for other cotton of the same forbid his finding a local habitation and name quality coming from other places, for the rea- in aerial worlds. son that it comes from Memphis, and, therefore, cannot be relied upon. This shows that the planter is not the only person concerned in the took advantage of this fact and actually final evil arising from fraudulent packing—the fame in self-defence, therefore, the merchants must take means for putting a stop to the infamous floated with greater case and speed directly It will be well for planters not hopestly

disposed, or who are too negligent to see that he no greater improvement in Wise's present helr overpeers and packers do their dut faithfully, to notice this: The merchants Memphis, for their own credit, and for the credit of the city, mast put an end to this practring the coming season where intentional lighter freights with hurrying crowds of Angle franch is evident, to publish the numes of the Saxon passengers from the Pacific to the Atcleaters who have pucked and sold fraudulent- lantic will find a made of transit in the world by nacked bales. Let the would-be swindler, above and around us, while railways will bring and those who have engaged in the dishonesty, back the same freight from east to west, pause before they commence or repeat their There are two consequences saturally arising base and criminal conduct. Let them ask from this state of facts. themselves how they can bear exposure, how The necessity for the construction of a Pathey can face the business connections, their cific railway by the general Government, will ighbors, their family with the word SWIN- be to a great extent obviated, the question of DLER attached to their names in the public internal improvements will be violently tipped and in the denunciations of their enumies. Let and should the Government at Washington de all concerned look back at the word-we have sire to send material of war to the Pacific printed it large enough-and let them resolve count, as suggested by Jeff. Davis, Mr. Buch-

Rurras Arras: There have been frequent on the hights of the Sierra Nevala. efforts made in the last few years to put a stop | To a great extent Coleman's reconstition others for the large number of bales sent to live after him would be superlative folic. Is market, knowingly and wiffully packed with our opinion cagles will quit this world and find cashenest intentions, and a letter of recent their syries in the mountains of the moon. We had correspondent at the shall bear no more of Angal's usings for the North, referring to the unusual quantity of poetry of the phrase with the glory of its illustrations of the lake a little morth of Sandasky. a great cause, my nature evapathizes with the Where such artirles are put into cotton bales, sentiments of the speaker, and my feelings sabing with the divinity of eloquence, his se bearts of his hearers.

He gained a great victory here. All unigh "Old Payette." Be assured that when the ensectacy of this county speak on the 4th of agent, it will be the death-knell of Know thingism in this region. Mr. Whitmore's seach here settles the fate of Know-Nothin sp in this county. The Democratic majorit will be fully one bundred, if not more. I shall remain here until a day or two befor e election, when I will return to Memphis in

The success of the aeron out Wise, has at lan ice of a perpetual current of air from we n east. We are led then to reflect upon the resquences to result from this discovery.

out one single step to be taken in order to rende oses of life. This is the adoption of some air may be directed as that of a vessel at sea By "tacking," a sailing vessel can cun in the from the frequency of false packing. This is | | no more an aquatic animal than presumatic. a fact sections in its consequences to the plan- He initiales air and imbibes water-yet beyond ter. It is a fact, the occurrence of which we this be to no more adapted to life confined to foresaw and predicted in remarks we made the out element than the other. He is not usaged, nor is he such-forted. His proper

Fifty years ago it was known that the Mississippi ran south to the gulf. Men like Wise ed out to the ocean. In the lapse of time mahinery was devised by which those who at as earlier period went alone with the current

orn" when it was converted into a steamer. But let us suppose that no invention can be through censeless ages has been flowing from west to east. It will follow that all mails and stratum of cusulous clouds. Whenever we

think that Memphis cottons would command the command t

shafts and wheel gearing, determined to omit mained in the beat below, and jumped out at that until we should be fairly under way next morning. Having had much experience in hard winds, and the perils of landing a balloon under them, we had constructed, at St. Louis, a good winker-work cat, (which, with a good and strong concentric hoop, are life preservers in the seal strong concentric hoop, are life preservers in the heat and halloon, and about eight feet the same to the waying to and fro of the lotty trees into which we must inevitably dash, that in these perils,) which was seemended between the best and halloon, and about eight feet above the former and within six feet of the heap, so that the neck of the balloon him; in the basket car whenever the balloon was fully bad a hind hope that we would be saved. I will be basket car whenever the balloon was fully been into the perils were at hand, but I still had a hind hope that we would be saved. I ordered two uses upon the valve-rope, and we

to his clarge for the night, with the under-tanding to have me waked whenever he want-d the valve worked, and he took it with alac-ity. Before I went to also we had mounted a a height at which the balloop became com-letely distended, and where we found the cur-

clothing we could put on us, it was still un-comfortable, though the thermometer stood at 40, and the harometer at 23, and this was the lowest of both the instruments during the whole woyage, except the crossing of Lake at the time ser. La mountain again mounts of for the upper current; being desirons of making a little more easting, be halfed my to open the valve, as the balloon had become sections, and the gas was rushing from the neck with a noise, but finding no answer from me, he suspected that I was being smothered in the gas, and he admonished Mr. Gager to mount to my car by a rope neavided for that purpose.

and Mr. Gager found me breathing spasmodically, but a good shaking, and the removal of the neck of the balloon from my face, with plenty of pure air around me, soon brought me Gov. Harris' hour and a half being out, by plenty of pure air around me, soon brought me gave way to Col. N. for thirty minutes. If gave way to Col. N. for thirty minutes. If back to a knowledge of what was going and I resolved to sleep no more during the night.

At midnight I felt quite well, with an invincrossed water the heaves-lit dome was as visthie below by reflection as above. So remarkable was this phosphorent light of the atmosphere that the balloon looked transingent, and
looked like light chirolog through edied paper.
We could nee tell prairing from forest, and by
keeping the eye for a mediant downward we
could see the roads forces, fields, and even
looked as the roads forces, fields, and even
could see the roads forces, fields, and even
looked and called on Col. Netherland to con-

the basket car whenever the balloon was fully distended.

The boat contained six hundred pounds of balloat, one burket of water, one burket of was of inch and a quarter roo, breaking like lemonade, with an abundance of breat and a size size at the fort catch of it in the trees.

We will soon have the "Atlantic" rebuilt for that I hope may prove a more successful emonstration of what we proposed to do on
